

# ITI Solution: PDM/CAD to PLM Migration

## Source PDM Systems

- Agile
- CMS/Product Center
- Enovia V6
- ePDM
- Matrix
- ProIntralink
- ProPDM
- SmarTeam
- Teamcenter Enterprise
- Vault
- Windchill/PDMLink
- Unmanaged files on disk

## Target PLM Systems

- Aras Innovator
- Enovia 3DEXPERIENCE
- Teamcenter
- PDMLink

*“The migration far exceeded our expectations. We were just talking about how we have had absolutely no hiccups due to the migration. We have done many migrations and none have gone this good.”*

- Industrial Controls OEM

## About ITI, a Wipro company

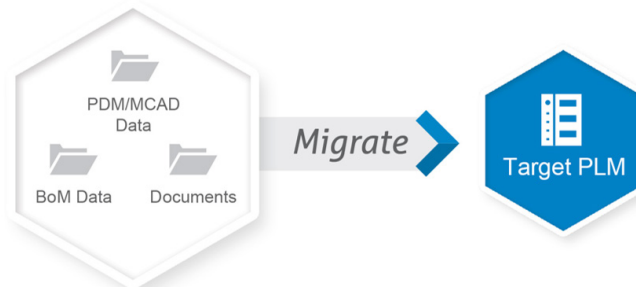

ITI is the global leader providing reliable interoperability, validation, and migration solutions for product data and related systems. ITI solves complex product data interoperability problems so the world's leading manufacturers can focus on making great products.

ITI is a wholly owned US-based subsidiary of Wipro, Ltd, within the Industrial & Engineering Services (IES) business. IES provides customers with a platform to innovate and engineer the next generation of products and platforms at scale.

## Experts in PLM Migration

When you have a complex PLM migration project, you need an experienced partner. ITI has a team of dedicated professionals who are PLM and CAD experts focused on PLM data migration. We have completed more than 100 production PLM data migration projects. Because we develop PLM/CAD and ERP integrations under vendor/OEM agreements with several major PLM vendors, we are uniquely qualified to become your migration solution partner.

## Data Migration Goals and Challenges

- Transition to target PLM with minimal disruption
- Replace one or more legacy systems with new PLM
- Transform and map the legacy PDM data, ensuring migrated data conforms to target PLM rules
- Minimize migration data set to only the required data
- Incorporate data from other systems to reconcile revisions or synch with released drawing images
- Execute production migration over a weekend
- Archive all legacy PDM data and turn-off the legacy PDM system or systems

## ITI's powerful automated migration solutions help keep your good ideas moving

- Data preparation and cleanup reports ensure migration readiness
- SaaS technology approach enables 24/7 analysis and test, with quick updates for the migration solution
- Fast database import/export tools
- Unique, iterative process strategy of test, verify and fix
- Migration configurable solutions feature advanced mapping capability for:
  - Incremental migration option
  - Duplicate item reconciliation
  - Pending rename resolution
- Extensible and open architecture
- Legacy PDM archive provided

## PLM Data Migration: Project Approach
